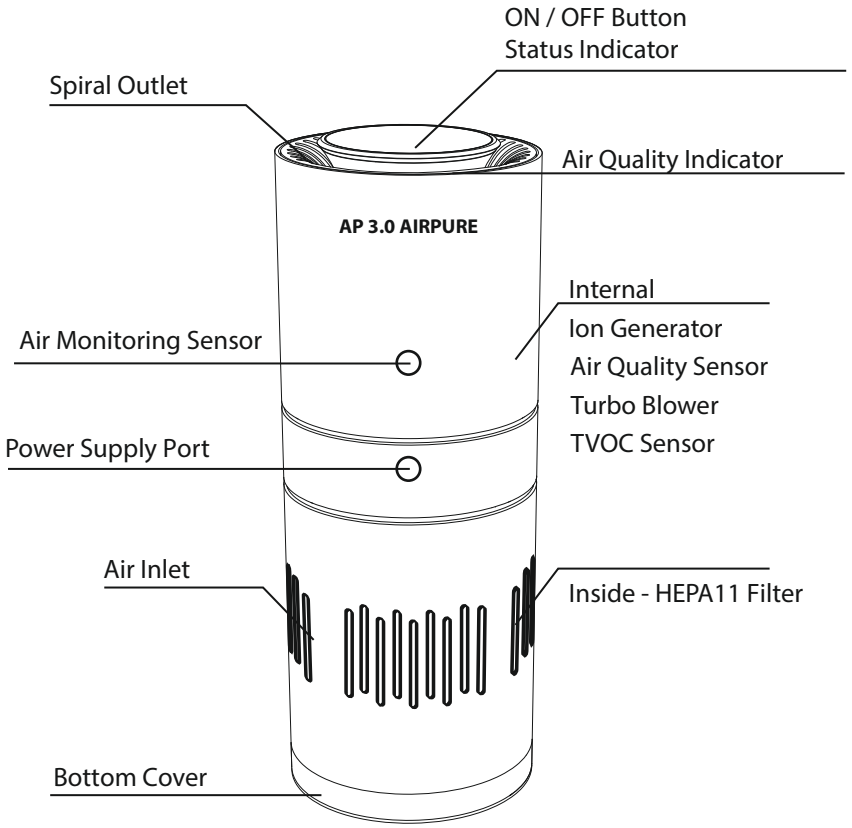
BLAUPUNKT

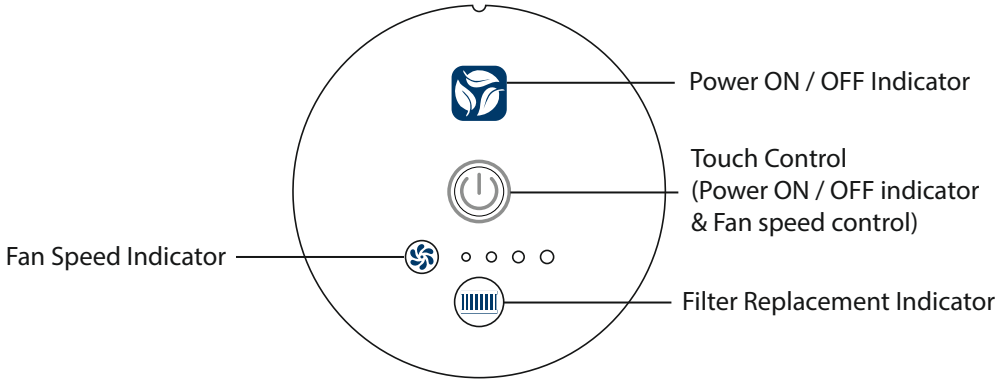
AIR PURIFIER
AP 3.0 AIRPURE

Clean AIR | Plug & Play

Enjoy it.

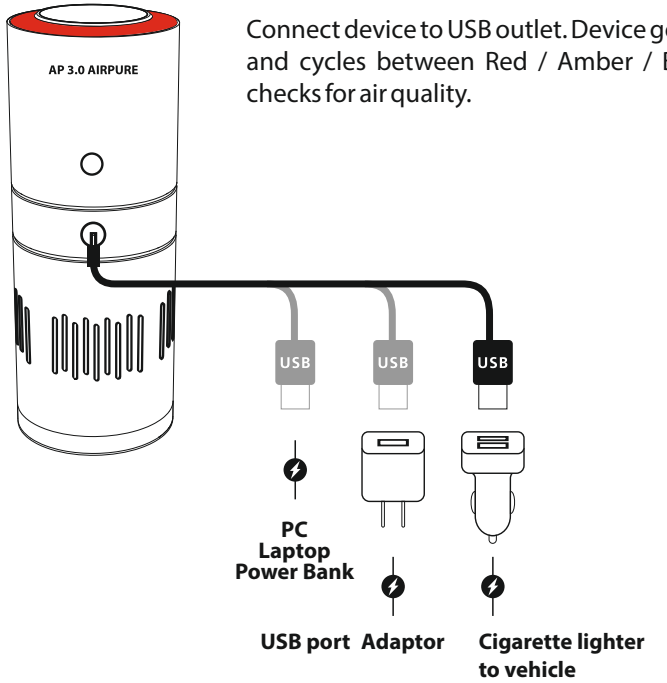
Structure:





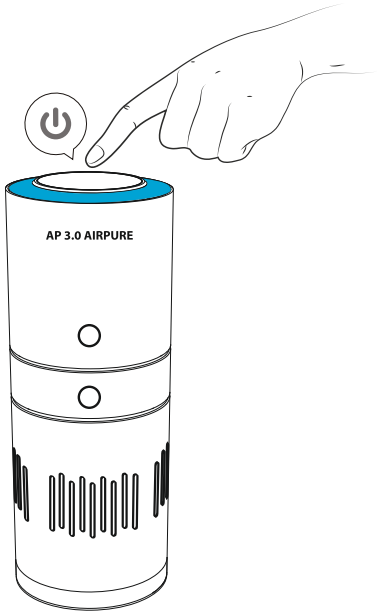
AP 3.0 AIRPURE

Standby Red indicator

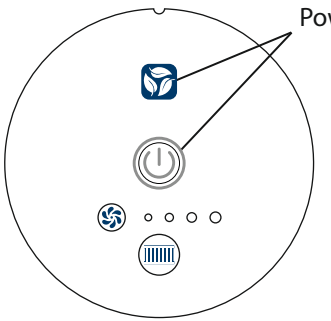


Connect device to USB outlet. Device goes into auto detect mode and cycles between Red / Amber / Blue while the air sensor checks for air quality.

The Power Supply Indicator Is On

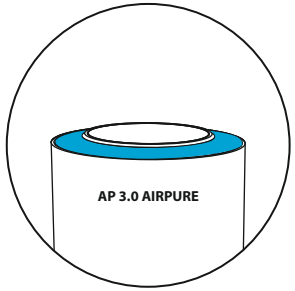


Once the device is turned ON, the Ultraviolet, Ionizer sections are also turned ON, the green symbol on the top display section turns ON to indicate it's in Virus / Bacteria killing mode (purifying).

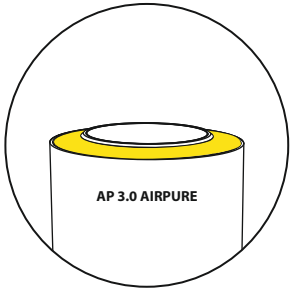


To turn ON device, touch the ON / OFF button once and the device will commence purifying the air in its immediate surrounding area based on the input from the sensor located on the side of the device.

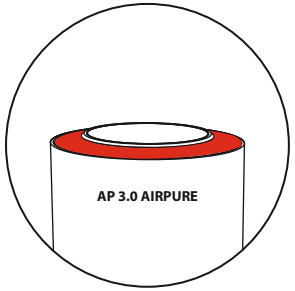
3-5 minutes post turning on the device and based on the sensor input the visual indicator shows air quality in the cabin / room.



Blue light indicates good air quality

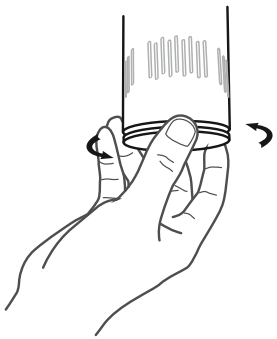


Amber light indicates some harmful gases or particles have been detected



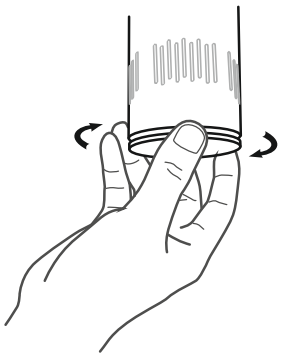
Red light indicates hazardous gases or particles have been detected

Filter replacement



Unscrew the bottom cover counterclockwise & open

Remove old filter and replace with new filter



Screw on the bottom cover tightly

AP 3.0 AIRPURE

Aroma / Fragrance:

This device comes equipped with a compressed ceramic insert that can be accessed when the bottom cover is opened. Pour some of your favorite fragrance (2-3 drops at a time) on this ceramic insert and place it back in it's original position. Once the bottom cover is sealed and the device turned ON, this fragrance is transferred to the cabin through the natural air flow of the device. .

Product datasheet:

Product dimensions:	71mmx182mm
Ions release:	5 million
Input voltage:	5V1A
Power:	<5w
Noise	<28dB
Net weight:	422g
Air quality sensor:	TVOC
Fan Type:	Double Inlet DC turbo
Filter:	Rough filter + HEPA11
Filter Type:	H11
For space:	10 m3
Case material:	Anodized Aluminum Alloy

Specifications:

Purification Method:	Primary filter + HEPA11 + Activated carbon filter + plasma 5million / cm^3 + UV light
Indicator Display:	Filter Replacement Reminder, Auto / Manual Fan Speed
On/OFF:	On/OFF Touch Control
Air Quality Testing :	TVOC sensor detection
CADR:	7.3m^3/h
Maximum Air Volume:	24m^3/h
Variable Fan Speed :	Max 5500r/min
Noise:	<30dB
Rated Voltage:	DC 5V1A
Rated Power:	<5W
Applicable Space:	Up to 10m^3
Working Environment:	-10°C~+50°C
External Material:	Anodised Aviation Grade Aluminum
Accessories Included:	USB Power Cable

Cautions

Please read user manual before use:

- Do not expose the device to rain or moisture
- If device is not going to be used for an extended period of time, please turn OFF device
